

## HOW TO CREATE A

# CONSTRUCTION SAFETY PROGRAM

**1 out of every 5**  
worker deaths occurs  
in construction.

Creating a safety plan for your construction site can **protect workers and keep your company financially viable**. Develop your comprehensive construction safety program with these steps.

10

Create a training schedule which can include Cat Simulators heavy equipment operator training.

9

Identify employees with the desire and aptitude to earn safety certificates.

8

Keep informed of changing OSHA requirements if in the U.S. or requirements in your country.

7

Tailor your safety plan for the construction site.

6

Conduct regular inspections.

5

Take employee concerns seriously.

4

Lead by example. Supervisors should know and practice OSHA safety regulations.

3

Go beyond meeting OSHA requirements.

2

Adjust your program as needed.

1

Become or hire a certified safety trainer.
